

Product name	VEGAMET 841
Model code	MET841.XXX1C
Order number	CR - 222 223
Quantity	1
Production period (days)	5

Robust controller and display instrument for level sensors

1x 4 ... 20 mA sensor input, 1x 4 ... 20 mA current output, 3x operating relays, 1x fail safe relay (instead of operating relay), Ex approval; on-site display, 4-key and Smartphone operation

Application area

The VEGAMET 841 controller feeds the connected 4 ... 20 mA sensor, processes the measured values and displays them. A large display for data visualisation is integrated in the housing designed for rough field conditions. It enables a simple conversion of pump controls, flow measurements on open channels and weirs and totalizers. With VEGAMET 841, limit values can be reliably monitored and relays can be switched, e.g. for an overflow protection according to WHG.

Your benefit

- Easy-to-read display from a distance, even in sunlight and darkness
- Complex programming of control tasks is no longer necessary
- Simple and safe setup and diagnosis of measuring points via smartphone

Explosion protection	XX	without, for Ex-free area (CE, UKCA, c-UL-us, RCM, EAC)
Overflow protection	X	without
Cable entry / Connection	1	M20x1.5 / without
Mounting / Material	C	for wall mounting / plastic
Customer-specific adjustment		No
Certificate/Standard		without
Measurement loop identification		without
Customs tariff number (HS code)		85371098
